PROFILE

PGDM graduate with dual majors specialization in Marketing and Finance from a Tier-2 B-School, with a B.Sc. in Information Technology and a PGP in Financial Management. Experienced in working on banking technology operations, digital banking research, technology partner mapping and digital marketing projects. Comfortable working with business information, analyzing data, researching technology solutions and presenting findings through reports and dashboards. Interested in Management Trainee, Business Analyst, Product Analyst and Operations Analyst roles across IT, BFSI, consulting and other industries.

INTERNSHIPS

Summer Intern (IT, Digital & Functional Deployment Vertical) - Union Bank of India (UBI) — **April 2026 - June 2026**

- Worked with the IT and Digital Deployment team, supporting ticket management, issue tracking, operational coordination and reporting to maintain records of technology-related issues and service requests.
- Assisted with Digital Contact Centre activities and bank website updates, coordinating business requirements, digital processes and content-related changes.
- Researched digital banking, UPI, Artificial Intelligence and emerging FinTech solutions to understand their applications, business relevance and potential use in banking operations.
- Identified and mapped 100+ technology partners, studying their company profiles, products and services and organizing the information into structured documentation for internal reference and evaluation.

Digital Marketing Intern - Indian Institute of Digital Education (IIDE) — **July 2024 - August 2024**

- Worked on 7+ digital marketing projects across SEO, SEM, content marketing and social media, gaining exposure to campaign execution, digital channels and performance tracking.
- Conducted keyword research, competitor analysis and Google Analytics-based performance reviews to identify content and campaign optimization opportunities; contributed to campaigns generating 10,000+ impressions.

PROJECTS/RESEARCH

- Developed, hosted and maintained websites using CMS, DNS, CDN, domain and web hosting, working on website functionality, content optimization and digital features to support business requirements and user engagement.
- Developed an E-commerce System for an MSME as part of the final-year UG project, incorporating SEO, Live Chat, Email/Web Hosting and digital customer engagement features to support online business operations, system functionality and customer interaction.
- Conducted study on challenges faced by alternative education institutions through alumni surveys, interviews, field observations and secondary research. Analyzed the findings to understand stakeholder requirements and developed an AI-integrated, SEO-optimized Career Guidance website with stream-wise career guides and Alumni Connect.
- Analyzed Union Bank's digital banking initiatives, conducted statistical analysis and developed Excel and Python/Streamlit dashboards.
